

Dementia-Capable Napa County

Creating a more
Age and Dementia-Friendly community!

**Dementia-Capable
Napa County**

A PROGRAM BY COLLABRIA CARE

Dementia-Capable Napa County

With the implementation of *Dementia-Capable Napa County*, Napa County will become a community in which people living with dementia and their families are empowered, included, and respected, and have access to supportive expert resources so they can live their best possible lives.

The objectives of the project will be achieved, in large part, through various forms of education and training

What is Dementia-Capable Napa County?

**Dementia-Capable
Napa County**

A PROGRAM BY COLLABRIA CARE

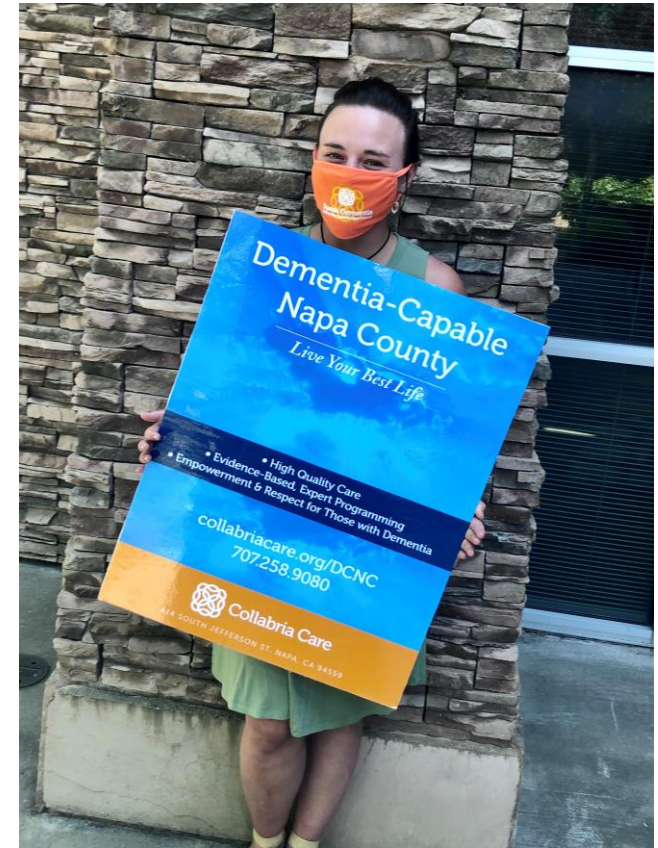

Dementia -Friendly America Communities

- Increase awareness and understanding of dementia and of people living with dementia.
- Increase awareness and understanding of brain health and risk reduction.
- Collaborate with public, private, not-for-profit and health care sectors to better serve people living with dementia and care partners.
- Address the changing needs of people with dementia and care partners.
- Create social and cultural environments that are inclusive to those living with dementia.
- Improve the physical environment in public places and systems (e.g., parks, transportation) so that it is dementia friendly.

Dementia-Capable Napa County Goals

- Provide services for individuals who have or are at risk for ADRD and living alone in the community and identifying individuals with intellectual and developmental disabilities (IDD) who have or are at risk for ADRD living in our community
- Expand services in our Day Program with RDAD & STAR-C and offer to community
- Provide individual consultations and host community-based educational workshops on dementia
- Provide consultation and trainings for the staff of Queen of the Valley Medical Center (QVMC) to create a dementia- friendly hospital
- Napa County Navigators Trainings
