#shpf2023

Welcome to the 2023 Bay Area Senior Health Policy Forum!

California's over-65 population is growing faster than any other age group. As we convene our eighth forum and come together in-person for the first time in four years, it's clear that an aging population is going to have major impacts on our communities, our workforces, and our systems of care. We are challenging you today to envision how to make that future work better for older adults and those who care for them. What policy initiatives are needed to respond to the urgent need for accessible, affordable, and culturally responsive caregiving services? How do we strengthen career pathways to provide employment opportunities with quality employers who are meeting the healthcare and long-term care needs of older adults? What do employers need to consider when creating inclusive workplaces with career opportunities while considering the impacts of a retiring workforce? How do we expand access to technology for older adults in a way that addresses their specific needs?

Throughout today's sessions, we will elevate these issues and learn how we can work collectively to impact the future of aging. Our speed networking session at the end of the day will provide an opportunity to connect one-on-one with leaders in the field who are encouraging you in these efforts. We have worked to reimagine this forum to inspire and energize you as we carry this work forward in our community. We are so glad you're here.

Sincerely yours,

Grace Li, CEO, On Lok
Co-Chair, 2023 SHPF

Maria Zamora, CEO, Center for Elders' Independence
Co-Chair, 2023 SHPF

About Us

Center for Elders' Independence and On Lok are both PACE programs serving San Francisco Bay Area seniors for over 40 and 50 years respectively. Since 2009, they have co-hosted this forum to find creative ideas and strengthen the safety-net for senior services in the Bay Area and provided an organized approach to collaborate and build common ground among care providers, advocates, and policymakers.

Agenda At-a-Glance

All morning sessions will take place in the Gillmor Center
