Resource Guide for the Impact of Technology on the Future of Aging

Lighthouse Program for Older Adults:

1. **Lighthouse for Older Adults Website:** LeadingAge California's website serves as the hub for the '*Lighthouse for Older Adults*' program, providing resources and information to support the well-being and needs of older adults.

   - [LeadingAge California](#)

2. **Health Equity and Digital Connectivity:** This initiative by *Lighthouse for Older Adults* focuses on bridging health equity gaps among older adults by leveraging digital connectivity, emphasizing the importance of accessible technology for improving overall health outcomes.

   - [Lighthouse for Older Adults: Building Health Equity through Digital Connectivity](#)

3. **Digital Health Literacy in Affordable Housing:** Addresses the unique challenges in affordable housing, *Lighthouse for Older Adults* offers resources to enhance digital health literacy among older adults, accompanied by a practical playbook for implementation.

   - [Lighthouse for Older Adults: Boosting Digital Health Literacy for Older Adults in Affordable Housing](#)

4. **CITRIS and the Banatao Institute:** Through collaboration with CITRIS and the Banatao Institute, *Lighthouse for Older Adults* explores innovative solutions and technologies to address the diverse needs of older adults, aiming to improve their quality of life.

   - [CITRIS and the Banatao Institute - Lighthouse for Older Adults](#)

AI and Care Work:

5. **AI Report - The Future of Care Work (Nov 23):** Laurie Orlov's report delves into the evolving landscape of care work, provides insights into the intersection of artificial intelligence and the future role it will play in caregiving.

   - [AI and the Future of Care Work 2023 (Laurie Orlov)](#)

6. **Cypress Living - Senior Residential AI Policies:** Cypress Living establishes comprehensive policies for integrating AI in senior residential settings, guided by ethical considerations and designed to enhance the well-being and care of residents.

   - [Senior Residential AI Policies (Joe Velderman – Cypress Living)](#)

Digital Inclusion:

7. **Santa Clara County Digital Inclusion:** Santa Clara County Digital Inclusion Workgroup's report outlines strategies to promote digital inclusion tailored to older adults in Santa Clara Co., goal reduce disparities in access to technology.

   - [Promoting Digital Inclusion for Older Adults in Santa Clara County: A Report by the Santa Clara County Digital Inclusion Workgroup (Oct 15, 2021)](#)

8. **Websites for SF Tech Council:** The SF Tech Council White Paper explores the role of technology in supporting older adults, offering insights and recommendations to improve the technological experience for seniors.

   - [SF Tech Council White Paper](#)

9. **Digital Inclusion as a Social Determinant of Health:** Looks at the significance of digital inclusion, this resource highlights its role as a social determinant of health, advocating for strategies to address digital disparities for improved health outcomes.

   - [Digital Inclusion as a Social Determinant of Health](#)

AI Policy and Frameworks:

10. **SAFE Innovation in the Age of AI:** Focused on safety and innovation, this resource explores frameworks to ensure responsible development and deployment of artificial intelligence technologies, prioritizing ethical considerations.

    - [SAFE Innovation in the Age of Artificial Intelligence](#)

11. **AI Bill of Rights and Schumer's SAFE Innovation Framework:** A Blueprint for an AI Bill of Rights and Schumer's SAFE Innovation Framework collectively propose principles to guide the ethical and accountable development of AI for the benefit of society.

    - [Schumer's SAFE Innovation Framework](#)

Additional Resources:

12. **AI in SAFe (Scaled Agile Framework):** Exploring the integration of artificial intelligence within the Scaled Agile Framework (SAFe), this resource discusses how AI can enhance agility and efficiency in large-scale software development.

    - [AI in SAFe](#)

13. **California Master Plan for Aging (CA MPA):** As part of the California Master Plan for Aging, Goal Two: Health Reimagined outlines strategies to transform health services for older adults, focusing on their unique needs within the aging population.

    - [CA MPA - Goal Two: Health Reimagined](#)
